SAFE DEPOSIT.

DESCRIPTION OF THE COMPANY'S

NEW BUILDING ON FORT STREET.

Fire and Burglar Proof Vaults Which Will Hold the Wealth of the Nation.

Many residents of Honolulu have doubtless wondered at the extensive excavations which have been going on adjoining the building of the Pacific Hardware Company on Fort street, and at the massive pile of rock going up on the left hand side. This work is all being done for the foundations of the new Safe Deposit building, of which, through the courtesy of Mr. C. B. Ripley, the architect, under whose supervision the building is being erected, the following description has been obtained.

The building will be two stories in height, with cellar. The front will be of cut stone taken from the quarry near the Kamehameha schools, and will be unlike anything of the kind in Honolulu. While it will conform to no particular style of architecture, it may be described as similar to the modern German. The feature of the front will be an immense bay window in the second story, 23 feet wide, covered with burnished copper, which will be quite a novelty.

The building proper will be of brick, 42 ft. 9 in. in width, 50 ft. in height from the sidewalk to the top of the coping, and extends to a depth of 60 feet. The basement is 7 ft. 6 in. in the clear, and will be occupied by Lewers & Cooke, an entrance being made from the present basement of their own store, while light and air will be obtained from glass and iron gratings at the sidewalk and rear.

The openings to the first story from the street will be entirely of plate glass and iron, as will be the window looking from the counting room to the safe deposit vault.

This window will be of the heaviest plate glass manufactured, 96x132 inches, and is the largest single piece of glass ever used in the islands. Behind this immense piece of glass will be the vault, consisting of two separate and distinct steel fire and burglar proof structures, each over 7 feet square, and each provided with separate time locks. These vaults are lined with solid steel 14 inches thick, and are the very best that can be made by the Hall Safe and Lock Company. The steel casing is to be further protected with a covering of fire-brick 20 inches thick. One of these vaults is for the use of the bank itself, and will be entered from behind the main counter, and is fitted up especially for banking purposes. The other is the safe-deposit vault, containing 250 separate boxes for use of depositors. Each of these is fitted with a double combination lock, and the depositor himself cannot open his own box until a clerk has first unlocked it with the bank's master key. No two of these locks are alike, and, as after business hours the main door will be closed and the time lock put on, these receptacles for the deposit of money, jewels, papers, etc., will be as safe as the ingenuity of man can make them.

The main counting room will be 26x43. Passing through this and around the semi-circular wire-screened counter, the customer enters the safe deposit room in which two screened alcoves will be arranged for depositors who wish to open their boxes in complete privacy, while on the other side is a director's room 14x20. In the corner adjoining the Pacific Hardware Co. will be a handsome office room, 16 feet square, which will be for rent. The height of the ceilings of the first floor are 15 feet, while the flooring throughout the building will be of matched Oregon pine.

A handsome and capacious staircase entirely separate from the bank ascends to the second floor, which is divided into five offices, which have already been rented. The two front ones are each 17x20 and will be beyond doubt the finest in the city, taking in as they do the immense bay window before mentioned. One of the others is 14x20, and the other two 12x15 each. The height of the ceilings on this floor is 13 feet. Every room in the building is fitted with stationary wash stands, and each occupant will have his own toilet room. There are patent sliding blinds, new to this country, to every window, and in all the minor arrangements no expense has been spared to add to the comfort of the inmates.

The roof of the building will be of corrugated iron, the cornices of zinc or galvanized iron, and the building will be plastered throughout. A handsome awning will extend over the sidewalk, and is to be supported by graceful iron brackets. Harrison Bros. are the contractors, and their contract calls for the completion of the building by August 1st. The building will present a very handsome appearance and will cost not less than \$16,000.

CRICKET AT PUNAHOU.

The Sailor Boys Are Too Much for the Landsmen.

The return match between an eleven from H. B. M. S. Hyacinth and an eleven from the Honolulu cricket club took place yesterday afternoon at the grounds of the Punahou college. There was a very slim attendance of spectators until the close of the game. The game was a short one, the ground being unsuited for large scores, and was virtually won in the first inning by the skillful batting of Dr. South, who ran up a score of 29 before he was bowled out by Hatfield.

The Hyacinth men went to the wicket first and managed to score 64 while the Honolulu team could only muster up 26 in their first inning.

In the second innings Her Majesty's boys were put out in one, two, three order, with a score of only 19 and the home team went to the bat with 58 runs to get to win the match, but could only scrape up 37, giving the game to the Hyacinth eleven by 20 runs. The all-round good playing of Dr. South, ably seconded by the bowling of Mr. Manning, won the game, while the skillful bowling of Mr. Hatfield was of valuable assistance to the home team. The ADVERTISER is requested to express the thanks of both teams to Professor Hosmer for his kindness in placing the Punahou grounds at their disposal.

The following is the complete score:

Hood's Cures

Sciatic Rheumatism

Quick Relief and Perfect Cure

Mr. C. E. Patrick
Stockton, Cal.

"I was so badly afflicted with sciatic rheumatism that I could scarcely move. I used a great many remedies which did me no good. A friend presented me a bottle of Hood's Sarsaparilla, which I began to take. The relief was quick and two bottles cured me completely. I authorize the use of my name and portrait in recommending Hood's Sarsaparilla, for I think it a very valuable medicine. I recommend it to all who may be afflicted with rheumatism or old sores, as I know of a lady in Oakland who has been cured of ulcers by this wonderful medicine." C. E. Patrick, No. 285 California St., Stockton, California. Get HOOD'S Sarsaparilla.

MORTGAGEE'S

Foreclosure Sale of Chattels!

BY VIRTUE OF A CHATTEL mortgage, executed by James Nott, Jr., to Alfred A. Doiron, dated March 8, A. D. 1892, and recorded in the Registry of Deeds, in Honolulu, book 131, page 464, and following, and upon which default has been made, to wit: non payment of interest, I will expose for sale and sell for cash, at public auction (unless sooner disposed of at private sale as hereinafter provided), on MONDAY, the 12th day of June, A. D. 1893, at 12 o'clock noon, at corner of Alakea and King Streets, in said Honolulu, the property mortgaged, consisting of 1 Bay Horse, 1 Buck Skin Mare, branded ace clubs on hip and L. K. L. under mane; 1 Wagon, 1 Brake, 2 Hand Carts, 2 Saddles, 2 Sate Harness, and also, all Tools and Stock in trade, comprising or belonging to the plumbing business of the mortgagor heretofore conducted at said corner of King and Alakea streets, and run being and situated at said place of business, also, a Life Insurance Policy on the life of the mortgagor, to wit: number 391,491 for \$1,000 in the Equitable Assurance Society, dated June 4th, A. D. 1888.

The undersigned is authorized under said mortgage to dispose of the aforesaid property at private sale and will do so if he receives an advantageous offer therefor, prior to the date of said auction. A complete schedule of the property and further terms of sale and other particulars can be obtained of W. A. Kinney, attorney for the undersigned, No. 318 Fort street, Honolulu, or at the public auction aforesaid.

ALFRED A. DOIRON,
Honolulu, May 16th, A. D. 1893.
